I. NEW ACTIVITIES

Nothing to report.

II. OLD ACTIVITIES

The liquidation of subject installation, previously directed, involves considerable planning and negotiation with various interests, inside and outside the Agency. The planning has been brought far enough so that negotiations may be begun. The disposal of personnel involved in this process is regarded as the principal problem. The disposition of the facility is regarded as only slightly less difficult and involved, in view of the many interests concerned. The date of final liquidation of subject installation has been hopefully estimated as 1 March 1953.
